# ABOUT THE JOCKEY BOX

Engineered for Excellence.

The UBC Jockey Box combines cutting-edge cooling technology with a square, compact design. Crafted to meet the demands of any setting, it ensures effortless operation and unbeatable performance. Choose from a variety of models, available in stainless steel or durable plastic, and bring your beverages to life.

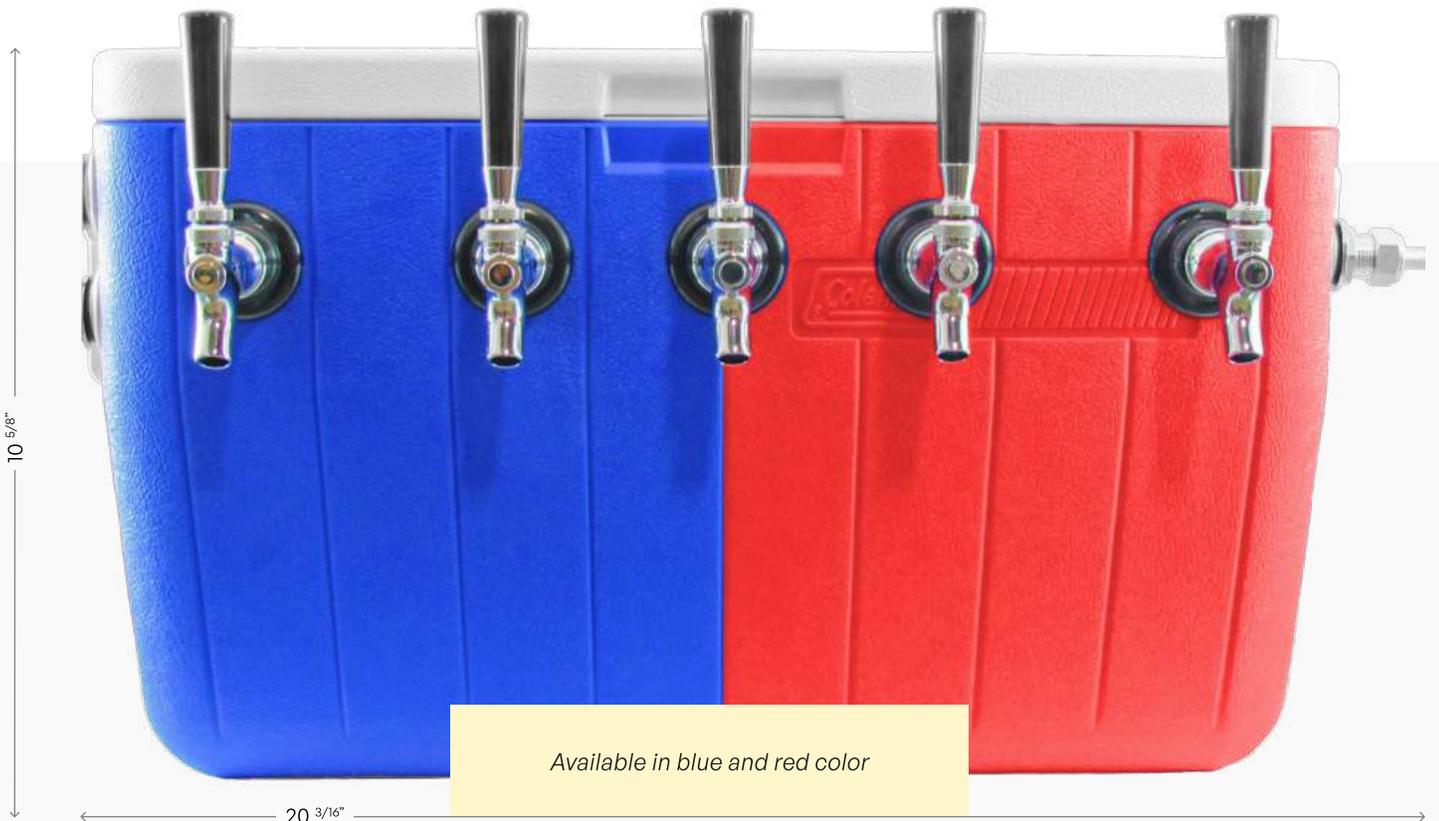

# PLASTIC JOCKEY BOX

- 304 Stainless steel coil
- Square coils for a better fit in the cooler
- Coils stand on legs to allow ice-cold water to chill beverages from underneath
- Optimized coil spacing enhances water circulation, delivering more effective and consistent cooling
- Cooler size is 48 Qt.

# BRANDED JOCKEY BOXES

Personalize any stainless steel jockey box from our catalog with your company's logo and graphics to create a cohesive brand look and feel that your guests will recognize and appreciate.

Choose from two branded jockey box options: wrap-around (all 4 sides) or full wrap (4 sides + top).

Getting a custom wrapped jockey box from UBC Group USA is the right choice, because we've been providing draft beer equipment branding services for two decades.

Our specialists use waterproof, and wear-resistant printing to ensure the best quality and longevity while also carefully preserving the look of your original artwork or logo.

You can choose from the two main types of vinyl graphic wraps on a SS jockey box:

- Wrap around (all four sides)
- Full wrap (four sides plus top)
