# FLASH CHILLERS

## FLASH CHILLER SYSTEMS

Cools beer and beverages down to 36-38F

### Beer towers

1 to 14 faucets

Air or Glycol cooled

### Drip tray

Available in different sizes  
with optional glass rinsers

### Flash Chillers

Brings down the temperature to 36-38F

## Flash Chillers

- Suitable for beer, beverages or wine
- Easy-to-install chillers ideal for mobile and special event solutions
- Can be added to an existing remote glycol system for additional cooling capacity
- Recirculation pump is to keep the product between the chiller and the tower at 36 - 38F

# BEER AND BEVERAGE COOLING SYSTEMS

FLASH CHILLERS are most suitable for cooling and dispensing beverages where there is limited refrigeration. Great solution for dispensing ICE COLD draft beer! Can be added to an existing remote glycol system for additional cooling capacity. Product is chilled by running through 20' - 40' coil submerged in a 6 - 60 lbs ice bank.

FLASH CHILLERS come in a variety of sizes and shapes to fit in compact shelf space under the bar or in a limited space on the floor.

UBC Group offers over 30 models of FLASH CHILLERS. Our chillers are approved by major International breweries.

# MOBILE BEVERAGE KEG BRANDING

NEW  
ARRIVAL

- Free mock-ups available
- All kegs can be branded at our warehouse prior to shipment

YOUR BREWERY

## We Brand Kegs!

UBC Group offers customization options at our on-site keg branding facility to enhance the look of your kegs. We can use your company logo, wording and/or specific colors to make sure your keg is unique and professional. Our branding options include:

- Embossing – Letters pressed into the top chime (1 or 2 sides)
- Silk Screen Printing – Your specific PMS color(s) applied
- Electronic Etching – Logo and/or verbiage permanently etched into the keg

Branding kegs not only highlights the uniqueness of your brewery, but also helps prevent keg loss and creates a product that is uniquely yours, instantly identifiable. Simply let us know the requirements for your customized kegs and we'll work with you to ensure your kegs are quickly delivered, with careful attention paid to every detail.

## Schaefer Tanks

Schaefer tanks provide a highly flexible design for a wide range of uses in any beverage application. These are available in 4 BBL (500L), 6 BBL (800L), 8 BBL (1000L) and 10BBL (1250L) sizes, jacketed or non-jacketed.

Jacketed tanks are perfect for applications requiring temperature control, while Non-jacketed tanks are lighter weight and used where temperature is not an issue. These tanks are portable using forklift or pallet jack, with built-in forklift channels for easy mobility.

These tanks are also stackable, which minimizes space requirements.

\*In-line leak indicator

## McDantim Trumix™ Blending Panel

The McDantim Trumix™ Blending Panel was specifically designed to fill the needs of the U.S. Beer Dispensing Market. The Panel is a small wall-mounted unit that tucks neatly and safely out of the way. It is easy to install and is extremely dependable. The Trumix™ requires no electricity, on-going maintenance or adjustment. It can be used equally well with all sources of clean nitrogen and CO<sub>2</sub> including high pressure cylinders, bulk tanks or separators.

McDantim blending panels include gauges to adjust pressure.

## Blending Panel

Part No.	Description	Price
TM100	Single Outlet Blending Panel, up to 15 kegs/hr	
TM100HF	Single Outlet Blending Panel, up to 30 kegs/hr	
TM200	Double Outlet Blending Panel, up to 30 kegs/hr	
TM200HF	Double Outlet Blending Panel, up to 60 kegs/hr	
TM300	Triple Outlet Blending Panel	
MV013	1/4" T w/Check Valve	

## In-line leak Indicator

With McDantim's In-Line Leak Indicator (MV035), you can see in seconds if you have a leak and gauge how big that leak is.

Part No.	Description	Price
MV035	Double In-line leak indicator	
MV039	Single In-line leak indicator

# WARRANTY AND RETURN POLICY

**RETURN POLICY** - No merchandise may be returned without prior authorization by UBC Group. UBC Group will accept returns for items within 30 days from the date of delivery. Used, altered, or any non-resalable items cannot be returned. Returned items must be in original condition and packaging, and must include all documentation and accessories. All returned items will be inspected, damaged or incomplete products will be refused. Special orders, custom orders, branded products, trunk line orders, and items discontinued by UBC or its suppliers, or close-out items cannot be returned.

A return authorization number must be obtained from UBC Group for any merchandise return. Packages without a return authorization number on them will not be accepted. The customer is responsible for all shipping charges. Authorized returns must be sent prepaid shipping only. Collect and COD shipments will be refused.

It is the sole discretion of UBC Group as to whether a refund or credit will be allowed. UBC Group reserves the right to levy up to a 20% restocking fee for any merchandise accepted.

**WARRANTY PERIOD** - UBC Group Warranty is one (1) year on parts and labor from the date of sale. Compressor warranty period is five (5) years from the date of sale by UBC Group, or UBC's authorized dealers. A warranty stub or documents of sale from distributor must be submitted for units not sold directly by UBC for warranty to be valid. The Warranty Claim form must be submitted within 30 days of completed repairs for the claim to be valid otherwise warranty will be voided. Each chiller should be registered in our Online Registration Form via the QR code below.

## **WARRANTY COVERAGE - (FULL WARRANTY IS LISTED ON OUR WEBSITE)**

**LIMITED PRODUCT WARRANTY** - UBC Group will be responsible for the labor charges according to the Labor Charges segment within the warranty period provided that all above mentioned prerequisites are satisfied. UBC Group may also replace the product at its discretion bearing the labor costs for the product replacement according to the Labor Charges segment. The customer is responsible for the return of the defective part or product to UBC Group for inspection and defect determination. Customer must package the part or product according to the instructions provided by UBC Group before shipping it. UBC Group will cover the shipping costs for the part or product as described in the Shipping segment of this warranty.

**COMPRESSOR** - Compressors are covered for an additional Parts Only warranty for a period of four (4) years beyond the general coverage described above. Under the additional coverage if a compressor is deemed defective by UBC Group, providing that all of the prerequisites described above are met, it will be exchanged for a new compressor. UBC Group will not cover the labor charges associated with the compressor replacement. It is the responsibility of the customer to return the defective part to UBC Group. The customer must return all parts of compressor and package the part according to the instructions provided by UBC Group before shipping it. UBC Group will cover the shipping costs for the part as described in the Shipping segment of this warranty.

The customer has the option to send the unit to UBC Group for compressor replacement and in this case will be responsible for all shipping charges. There will be no additional charges by UBC Group for the compressor replacement.

**HOURS** - Monday through Friday, 8:30 am to 5:00 pm CST.

## **WARRANTY DOES NOT COVER**

- Physical damage or water damage to the unit caused by negligence of the user.
- Improper installation and modifications made without UBC Group's explicit approval.
- Damage resulting from electrical supply, water supply, drainage, flood, storm or any other incidents.
- Repairs made without the explicit authorization of UBC Group or without the submission of the warranty claim form.

Note: UBC Group IS NOT RESPONSIBLE FOR ECONOMIC LOSS OR SPECIAL, INDIRECT, OR CONSEQUENTIAL DAMAGES, INCLUDING, WITHOUT LIMITATION, LOSSES OR DAMAGES ARISING FROM FOOD OR PRODUCT SPOILAGE CLAIMS AS A RESULT OF REFRIGERATION FAILURE.

**SHIPPING** - During the warranty period UBC Group will be responsible for shipping charges as described in the previous segments. UBC Group will ship replacement parts using standard ground shipping only. Refrigeration units will be shipped on pallets ground freight (LTL) only. If expedited shipping is needed the customer will incur the difference in shipping cost.
