

REMOTE CO₂ STORAGE SAFETY 3 ALARM + HORN STROBES

Our #1 CO₂ Safety Device

The RAD-0102-6-HS2 combines CO2Meter's trusted Remote CO₂ Storage Safety Alarm with a high-impact horn strobe for enhanced audible and visual alerts. This integrated solution ensures immediate notification in the event of a CO₂ gas hazard, helping to protect personnel and maintain compliance in storage and confined space environments.

Features

- 3 alarms/relays
- Meets NFPA, IFC, and NBIC requirements
- Meets OSHA and NIOSH TWA standards
- IP54 Enclosure
- UL listed for compliance
- Relays can automatically control ventilation fans or signal a fire alarm panel
- LCD display clearly indicates current CO₂ level in ppm or % and temperature

Accessories

- **RAD-0104** | Remote Display
- **RAD-CDU-HS1** | Central Display Unit and Horn Strobe
- **RAD-PMU** | Power Monitor Unit
- **SV-1029** | Solenoid Shut-off Valve - 3/8"
- **CM-HS2** | (2x) Horn strobes
- **CM-1029** | Industrial Strobe Siren

Applications

**Restaurant
& Food**

**Breweries
& Wineries**

Safety

**Beverage
Dispensing**

Agriculture

TECHNICAL DATA

Remote CO₂ Storage Safety 3 Alarm

CO₂ Measurement Range	0-5% (0-50,000 ppm)
CO₂ Measurement	NDIR (Non-dispersive Infrared)
Alarms	5,000 ppm TWA, 5,000 ppm, 3% (user configurable)
Measurement Interval	2 seconds (0.5 Hz)
Operating Temperature	32-122° F (0-50° C)
Calibration	Zero with Nitrogen or Factory Calibration
Connections	Standard RJ45
Sensor Life Expectancy	>15 years
Sensor Coverage	Approximately 1,500 sqft

Electrical and Mechanical Specifications

Power Supply	100-240 VAC 50/60 Hz to 12 VDC power adapter
Power Input	4.5-5.25 VDC
Power Consumption	3 Watts
Hard-Wired	24 VDC hard-wired option (cable included)
Output	4-20 mA

Alarms & Relays

Response Time	<60 seconds
Alarm Level	88 dB
Relay Power	Peak current <2A @ 30 VDC or 250 VAC, SPDT
Relay Color Coding	Red & White: Normally Open, Blue & White: Normally Closed
Hornstrobe Power	Power supplied by 10' RJ45 Ethernet connector (included)
